

# Let's Explore Europe!

Research Booklet

# Let's Explore Europe!

## Research Booklet

***Let's Explore Europe!*** is a research booklet about the European countries.

The students learn about different European countries by researching some information about them: location (mark on the map), flag (colour it), official language(s), population, area, capital city and other major cities, currency, national anthem, national symbols (animal, plant, colour, etc.), traditional food, famous people, how to say 'Hello!' in official languages, and some interesting facts.

There are worksheets for 51 European countries, which include 44 sovereign states or nations in Europe, as well as several countries which occupy only a small part of Eastern Europe (Kazakhstan), and the transcontinental countries in the Caucasus region, between the Black Sea and the Caspian Sea (Georgia, Armenia, and Azerbaijan).

The activity can be done in pairs or groups, as well as individually.

It is a good way for students to improve their geographical knowledge and research skills, as well as writing in English, especially when celebrating the European Day of Languages (September 26) or Europe Day (May 9).
